

AUTISM RESEARCH CENTRE

- **Post Doctoral Research Fellowship**
- **Two PhD Scholarships**

La Trobe University is establishing a new dedicated Autism Research Centre, a joint initiative with Autism Victoria. The following opportunities are available to researchers in the field of autism:

Post Doctoral Research Fellowship:

This three-year Fellowship is intended to advance research into Autism Spectrum Disorders for applicants with a PhD, an excellent record of research achievement, publications in the field, and ability to demonstrate research outcomes at an international level.

PhD Scholarships (two available)

The scholarships are available in any area of Autism research that the Autism Research Centre and the School of Psychological Sciences at La Trobe University can support.

Applications: Closing 13 December 2007
